Ms Erin Newberry
San Antonio River Auth.

Re: Region L Plan

Dear Ms Newberry:

As a retiree, living in the Hill Country and well-acquainted with the vagaries of the weather and the vulnerability of our groundwater, I am taking this opportunity to add my voice to all those counseling prudence.

I am particularly observing that the problems in water management are known and, in my judgment, would yield more quickly to stewardship conclusions if we, all of us, were to secure an understanding of water as a commons, not a resource commodity.

This understanding belongs in the constitution.

Yours very truly,
Quentin Ezyberg
